

IPC-6806W

6-slot Wallmount Chassis

Introduction

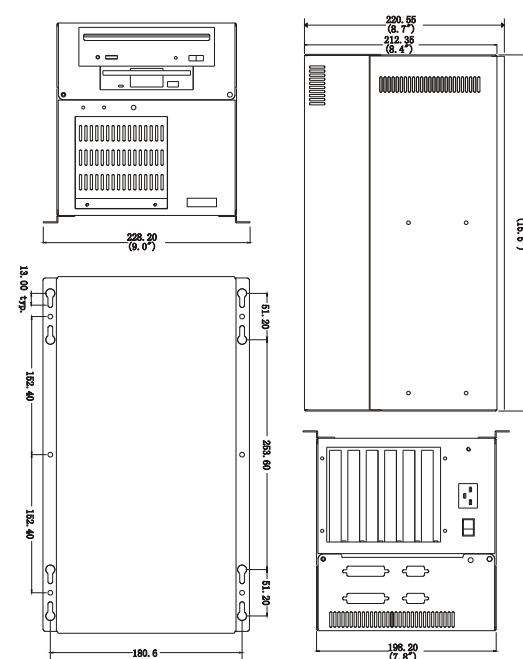

IPC-6806W provides CD-ROM bay in its compact size to cater for the need of the users, it is convenient and practical.

IPC-6806W is designed with heavy-duty steel, rugged construction, rational technique and excellent expansion space, ensuring high cost-performance. It can be widely used in various fields, such as communications, network, transportation, multimedia, etc.

Specifications

Provides six full-size card sockets
 Heavy-duty steel chassis
 One 5.25" CD-ROM and 2 x 3.5" HDD bay
 One 49 CFM fan with air filter on front panel
 Supports 6-slot ISA or PCI/ISA passive backplane
 Dimensions: 216mm (H) x 198 mm (W) x 395 mm (D)

IPC-6809

8-slot Wallmount Chassis

Introduction

IPC-6809 is a compact wallmount chassis with one CD-ROM bay and one FDD bay. It can be used in some harsh industrial environments. It comes with a built-in 270W high-performance industrial power supply with one high power cooling fan, greatly ensuring the reliable operation of the system.

IPC-6809 comes with one 8-slot passive backplane and one 270W power supply. Its architecture is reasonable and cabinet, coupled with bracket for easy installation. It is an ideal platform for applications in charging system on expressways, touch-query system, etc.

Specifications

Heavy-duty Al-alloy panel
 1 x 3.5" HDD, 1 x FDD, 1 x CD-ROM
 Backplane: IPC-6108P3
 Power Supply: 270W
 One cooling fan
 Desktop or wallmount for selection
 Dimensions: 270mm (H) x 243mm (W) x 397mm (D)
